First Time Ever

Mrs. Jones Appointed To C-S Board As First City Employee To Win Seat

Belle Glade city commissioners July 22 broke the district barrier when they named Vera C. Jones to succeed Herman Close to a three year term on the city's civil service board. It marked the first time a city employee has served on the board since the city adopted the civil service system on Dec. 8, 1949.

According to City Clerk Frank Anderson the appointment carries still another "first" in that for the first time the board will have a member who will have a close working association with the problems of the other city employees, and this will provide a channel for the dissemination of information back to the employees.

Mrs. Jones began working for the city April 7, 1950 as a clerk in the water department. She was transferred to the city clerk's office in March of 1955. She was one of two employees

nominated by her fellow-employees to fill the expired position on the board.

While the city has never had a civil service employee on the governing board, City Clerk Anderson said the practice was not uncommon in other cities.

Another Appointment

Anderson also announced that another appointment to the civil service board would be made soon, probably at the next council meeting. The term of R. S. Burr has also expired.

Carry-over members of the board include F. L. Harris, Lee Puckett and Richard Pickett.

Codified Rules

Since June first the city has been operating under a "new code of rules. The revision and codification of the older rules was the result of many hours of work by the board, department heads and the city manager.

Sharp Dip Seen At Cattle Sale

A sharp dip in slaughter prices was felt at the Monday Glades Livestock Market where 647 cattle returned \$89,459.76 and 67% of the offering sold as steers. Twenty-seven percent of the run was cows and 33% of these sold as stockers.

Compared to a week ago, slaughter steers and heifers sold \$1.50 lower, calves were steady to \$1 lower, cows sold \$1.50 lower and bulls were \$1.20 lower.

Stock prices saw steers and heifers selling steady, calves steady to \$1 lower and cows \$1.20 lower.

Talks And Tours Planned For Guest At Glades Station

Personal at Everglades Experiment Station turned out this week to welcome a Greek entomologist and lead him through a planned tour of the station facilities in a three-day tour, according to Dr. W. T. Forsee, Jr., chemist-in-charge.

Theodore C. Buehler, Director of the Plant Protection Institute at Patras, Greece arrived Wednesday from Sebring where he had inspected the state's eradication program, and an intense tour of activity was waiting for him.

According to information received at the station, Buehler, who is director of a Greek governmental agency responsible for the overall functioning of the entomological research station at Patras, is sponsored in this country by the International Cooperation Administration.

Specifically the visitor is interested in entomological research techniques and administration, and he is scheduled to meet with many sections of the station staff.

His schedule reads like this: Wednesday: Met with Dr. R. Allen and Dr. Victor Green on entomology problems; then with Dr. C. E. Haines and H. L. Chapman about animal husbandry; then with Dr. H. W. Burdine and Dr. F. H. Thomas on horticulture and soils.

Today will find him with Dr. R. V. Allen for talks about fibers, D. S. Harrison on ag engineering and administration and with D. D. Quast about sugar cane. Field tours are planned.

Friday's business concerns talks with Dr. J. N. C. (Continued On Page Eight)

New Bond Issue For Roads And Bridges Discussed

Possibility that Palm Beach County may negotiate another road and bridge bond issue—this time for the purpose of raising taxes—was seen this week following a discussion by the county commission.

The idea of a bond issue to finance needed road and bridge projects is not new with the commission. This means of financing construction programs has been done in the past.

The latest a \$4.3 million issue which rebuilt Royal Park Bridge and paid for several other projects which included money for Ave. E at Belle Glade, Boynton Beach West Road, Lake Shore Drive at Canal Point and Palmetto Park Bridge at Boca Raton.

Under the plan, the commission earmarks a portion of its anticipated gas taxes as payment on the bond issue. Work is supervised by the State Road Department.

Walter Hooker Is Named To County Zoning Board

First members of the county's new zoning board were announced this week by two county commissioners. The other commissioners said they would make their appointments to the five-man board shortly.

County Commissioner Paul Rardin named Walter Hooker, Belle Glade, as board member and Commissioner George Kenneth Foster named V. D. Stone as member from District 1.

(Continued On Page Eight)

Teen Town Hall Loses Free Lease To New Business

Teen Town, Inc., has closed its doors after last Saturday's notice to vacate the building to the leasing of the building to a commercial enterprise. The teen center had been using the facilities of the building rent-free since it opened last January.

Dr. J. A. Baker, owner of the Belle Glade Hotel building where Teen Town was located said this week that negotiations were in process to locate a coin-operated laundromat there.

Teen Town officers immediately began to find quarters for their members and it was understood that the Belle Glade Elks lodge has appointed a committee to work out arrangements for opening their hall to teenagers until other arrangements, if any, are made.

Ehabed Ruler Lorenzo Connel said Wednesday that this weekend to teenagers; however, he said the details would probably be worked out to open next weekend for the youngsters.

This weekend the director and members of the Pahokee Youth Center have invited youngsters in the Belle Glade area to the center.

(Continued On Page Eight)

Road Work Set For Canal Point

Work is scheduled to begin by August 6 on a \$155,945 road improvement project on Lake Shore Drive in Canal Point. Road Board Member William D. Singer said this week.

The project will be approximately 0.7 mile long and should be completed within 150 days, or by January.

The project is located at the northeast end of Lake Shore connects with U. S. 441 and the eastern end permits traffic to make connections for Belle Glade.

Work will consist of clearing, grubbing, grading, laying of a 12-inch base, paving, and construction of drainage structures, curb and gutters, sidewalks and grading.

The contractor will be required to maintain traffic during the course of construction.

The contract was executed formally July 21 with Weekly Paving Company, Incorporated.

Not Much Difference Seen For 1959 Glades Tax Bills

Glades taxpayers in some areas can expect somewhat lower tax bills from Palm Beach County this year while others, who might increase in their bills, according to information received this week from County Commissioner Paul Rardin who released millage rates for this area. While the rates have not been certified, Rardin said he was almost certain there would be no change in the rates quoted in this article.

Traffic Plan Gets Good Reaction City Official Says

Favorable comment concerning the new traffic parking plan on Avenue A has been voiced by the city manager and other officials in an increasing degree as motorists become accustomed to the parallel parking system, according to City Manager C. B. Talmadge.

Talmadge said that from all the comments he has heard, only one was critical of the system, and that criticism was cleared. Told that the parking meter poles were not properly located, Talmadge explained that the poles would be relocated before the meters were placed in operation in September.

Talmadge told The Herald this week that the relocation of the meter stands would probably be accomplished during some of the curb and sidewalk replacement program.

This week's "Chamber Chat" is published on Page Eight.

First Hearings Aug. 4-5 On South Bay Property

Records of the property revaluation for the City of South Bay will be open for inspection by property owners of that city at the city hall August 4 and 5 from 9 a. m. to 5 p. m.

Officials of Hunnicutt & Associates, the firm which will do the revaluation survey, will be on hand to answer questions and receive any requests for adjustment of property values.

Final decisions on adjustments and the correction of errors not handled during the two days will be heard by the city council sitting as a board of equalization at a later date.

The general county tax millage is 9.92 a rise of .54 from last year. While the Flood Control District millage remains at .75, the school board up its rates by .24 mills to 7.74. The total county-wide rate, therefore, is 14.41 a jump of .78 from last year or \$14.41 in taxes per \$1,000 of taxable valuation on property.

Glades Rates

Glades taxpayers get added millage from one or two other sources depending on whether or not their property is included in the Port of Palm Beach tax district. All Glades property owners pay a mill rate on one of two hospital districts. Taxes from the sub drainage districts are figured on an acre basis. Both hospital districts lowered rates; however the Northwestern Palm Beach County Hospital District sliced off the biggest cut, which amounted to a drop of 1.23 from last year.

Due to the drop in hospital district and port district millages the boost in county-wide rates just about balances itself when compared with last year's rates. The difference amounts to slightly more or less than .50 of a mill for the Glades.

District Rates

B. G. Hospital 2.20 down .20
Pahokee Hosp. 3.25 down 1.25
Port District .75 down .09

Your Taxes

Depending on whether property is within the port district or not, tax-payers in the Belle Glade Hospital District will pay \$18.59 or \$17.61 per \$1,000 of taxable valuation, a jump of .49 and .59 respectively.

Those taxpayers in the Pahokee Hospital District will pay (Continued On Page Eight)

No New Candidates City Clerk Frank C. Anderson said last Wednesday that no new candidates had qualified for the city's Sept. 11 municipal election. Incumbents Paul Davidson and Z. T. Ingram qualified earlier.

Incumbent S. Roberts, state representative, assisted in cutting the watermelon which was served to all kids that had participated in the program, and several adults present. Directors serving for program were Vince Marquess, his second year, Mrs. Gove, 8th year and Jim May, 3rd year.

Belle Glade Memorial Hospital Modern Electrocardiograph Is Donated To Hospital By Your Heart Association

Belle Glade Memorial Hospital received its third gift from the Palm Beach-Martin County Heart Association in the form of a Cambridge Simplic-Scribe electrocardiograph which was presented to Floyd Miller, Jr., hospital administrator, July 20.

The new machine replaces an older Burdick E. K. II, and it will mean more accurate information for diagnosis of cardiac patients will be available.

The Cambridge model is transistorized, meaning its electronic functions through transistors instead of electronic tubes, which means longer wear and closer tolerances (better readings).

The \$547 by 10 1/2 by 17 1/2 machine would cost in excess of \$500 if purchased by the hospital. It was obtained and donated to the hospital through the fund drive and gifts to the area. Mrs. Victor Mulberg made the presentation on behalf of the association.

A pacemaker and defibrillator, both electric pieces used in connection with heart-connected therapy or surgery, were donated to the hospital prior to (Continued On Page Eight)

Past RDB President Waugh Sketches Communist Threat To All Americans

The threat of communism to our American way of life was the principle topic of guest speaker J. A. Waugh, past president of the Palm Beach County Resources Development Board, as he addressed Belle Glade Rotarians Friday.

After Germany was defeated they encouraged the "Bring the boys home" campaign, knowing that if our armies were out of Europe, they would have an advantage at the peace table, he said.

Russia claims to be democratic, but it is not, in our sense. To the Russian education means instruction in dialectical materialism, the art or practice of "front" organizations for equality, social progress, civil rights or other organizations of this nature.

Hydrology And Agri-Climatology Experiment Station Study Of Weather Aids Growers

In his last news release to The Herald before his transfer to Gainesville, Harrison released some comparative figures on rainfall and some facts of interest about our Everglades Experiment Station and its studies of weather.

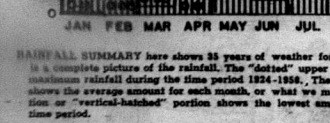

Harrison said it's called agri-climatology, that is, the study of how man can put his knowledge of weather—particularly rainfall in this instance—to work for him to reduce some of the chance in the complex business of growing fresh vegetables.

The "Study" U. S. scientists have been studying hydrology, the study of water requirements pertaining to plant growth, for years; however, it's just been in the past 10 years that much emphasis has been placed on the subject. The biggest accomplishment of agri-climatology and hydrology is that it puts farming on a strictly scientific basis.

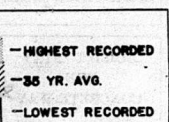

Harrison explained that the rainfall studies which have been going on at the station are all part of a program he initiated (The Herald, July 16) which has been finished in a few years. He will be able to tell the farmer exactly how much water per acre per crop is required for maximum quantity and quality. This takes the studies out of a scientist's notebook and puts it in the farmer's pocketbook.

(Continued On Page Eight)

35 YR. RAINFALL SUMMARY (1924-58 INCL.) BELLE GLADE, FLA.

RAINFALL SUMMARY here shows 35 years of weather for the Belle Glade area. The graph is a complete picture of the rainfall. The "dotted" upper portion for each month shows the maximum rainfall during the time period 1924-1958. The "cross-hatched" middle portion shows the average amount for each month, or what we may expect. The extreme lower portion, the "vertical-hatched" portion, shows the lowest amount that was recorded during the time period.

Rainfall, as of July 25, for July is 11.41 or 3.58 inches above average. Total rainfall for 1959 through July 25 is 39.29 or 5.82 inches above the 35-year average.

ARTS AND CRAFTS

One of the most outstanding activities in the Belle Glade Summer Recreation Program features finished work during the six weeks. Shown in the background are finger painting, basketry, paper mache animals and dolls, patchwork of cork and felt. Some of the kids participating in the program were (l-r) Richard McMillan, Reba Brown, Darlene Anderson, Luck DeGraw Botzler, Linda McMillan, Margaret Cross, Mrs. Genevieve Gove, instructor, Judy Workman, Jackie Fisher, Patricia Fisher, Gwen Gove. On the tables are just a few of the articles made by boys and girls, who enjoyed putting forth their best efforts and abilities to create this handicraft.

Summer Program Closed With Awards

It's All Over: Party And Watermelon For Everyone

The 10th year of the Summer recreation Program had an enrollment of 330 children at the Municipal Park and completed activities Friday with an awards party for the winners placing first in the various contests and those in arts and crafts.

James A. Jimmy Williams, president of the Civitan Club, presented the winners each a silver dollar. The money was donated by the Civitan Club. In Arts and Crafts, midges and juniors group receiving silver dollars were Reba Brown, (who was commended for a very faithful and very hard worker having missed only one morning and one afternoon in the entire six weeks program, Richard Van Landingham, Jr. and William Mills, Jr. Boys: 1st Ronnie McWhorter, 2nd Jerry McWhorter, 3rd Harvey Pearlman.

Incumbent S. Roberts, state representative, assisted in cutting the watermelon which was served to all kids that had participated in the program, and several adults present. Directors serving for program were Vince Marquess, his second year, Mrs. Gove, 8th year and Jim May, 3rd year.

Temporary Dog Pound Business

The Herald (June 4) called for the speedy correction of the disgraceful dog dog pound located at the city dump. This week the Belle Glade city manager announced that temporary relief had been provided while the city worked out permanent plans for a dog pound to be located at the sewage treatment plant site—a location satisfactorily used by a great number of cities.

Considering the difference between the old facilities and the new ones, it might objectively be stated that the pound is an improvement for several reasons.

The two pens, each with a concrete floor about six feet square, are much cleaner. The structure is more than six feet high, and while the fly problem is still present, the structure is located under shade trees and is out in the open for fresh air's sake.

Large pans provide adequate amounts of water which appears fresh. The animals—which remain in the city's trust no longer than 30 days, receive food scraps once each day from the city jail kitchen.

The city was successful in hiring a game warden, J. A. Shiver, who looks after the dogs. He sees that the dogs are turned over to the Palm Beach Animal Rescue League after the 30-day waiting period after the dogs are picked up throughout the city.

The city's final plans for a permanent dog pound call for modern structures to be located somewhere on the grounds of the sewage treatment plant. This work won't be started until the landscaping of the site have been completed, probably sometime after the plant goes into operation.

The step they have taken toward maintaining a decent, clean place for the confinement of stray dogs is encouraging. We're certain dogs lovers—and the dogs—will appreciate the change.

Someone Else On Our Team

After the City of Belle Glade forwarded a copy of their Resolution 915 to state representatives and county officials calling for the four-laning of a 2.2-mile section of SR 15 from Avenue A to the Glades sub courthouse, letters from these folks who immediately wrote the city pledged whatever they could do to see the four-laning a reality.

Each noted with regret that next year's State Road Department fiscal budget had already been adopted; however, they stated that they all be in there pitching in some inuring or another when SRD budget talks get underway next March.

Whether the plan will be approved or not, no one at this time can say; but it's encouraging to note that the city has two things in its favor: two signs.

Yes, signs which were put there by some State folks. The signs to which we refer are the large yellow jobs posted just outside Belle Glade on the south and Pahokee at the north. They read:

"Reduce Speed . . . Road Sub-Standard."

Somebody has already admitted, it seems, that the road needs something done to it. We hope it's four-laning if that's what it takes to solve the growing traffic problem around Belle Glade.

Some Interesting Info On Celery!

The March issue of Progressive Grocer had this in an ad for Morton's Salt:

Celery was grown in the Mediterranean countries in 850 B. C., but was used only for medicinal purposes. In the 1600's the French and Italian began adding it as a flavoring for foods. In 1874, Holland-American gardeners in Kalamazoo started producing celery commercially and sold it to people on trains passing through town.

Nowadays the average American eats about 8 lbs. of celery a year, and like most of the foods we enjoy, celery tastes even better with Morton's Salt.

Just what is in this celery crop that brings near eight million dollars annually to the Gladelands?

Well here's what Thornton Laboratories, Inc. say:

Uncle Dan From Democrat River Says

Dear Mister Editor:

I was setting in church Sunday just looking around at the wimmin's hats. Did you ever do that, Mister Editor? Try it sometime. Just take a look at the contraptions they've got this year, fer instants. They get smaller and smaller. The one the preacher's wife had on looked like it was made out of a postage stamp and trimmed with a humming bird feather. I was telling Ed Doollittle about it, he said, "Well, you know how wimmin are, were, or will be. And neither does Ed."

Intenally, we got a real practical preacher at our church now. Last Sunday, fer instants, he said we would now repeat the 23rd Psalm and would the lady who always gits to Still Waters while the rest of us was in the Green Pastures please wait till we got caught up.

When we come out of church some of the fellers was saying we ought to aircondition the place. It might work in some churches, but it would be nigh on dumb to do it in our church. Take a feller getting a whole hour's sleep in that artificial chill, plus the chill he gits from some of the members that don't speak to him, and add that to a cold sermon he's bound to get onct in a while from the parson, and all three of them might give him a maldy he couldn't survive.

Well, after reading the goings on the Congress last week I'm convinced that politicians and crab grass will eventually take the country. They ain't no cure fer either of them. I don't know about bubble gum, but I'm agin selling them Chinese Reds anything but castor oil and dentist drills.

I got to knock off now, Mister Editor, and go do a little fishing. You can tell the folks in town the fish is biting real good these days. Ed Doollittle says he was in the bath tub the other day and a 5-pound trout run down the drain with the soap. One of Ed's neighbors said he might believe the story about the fish, but he doubts that Ed was in the bath tub.

Yours truly,
Uncle Dan

Taken Of Community Respect

Rev. And Mrs. Malcolm Receive Their New Automobile

This community's expression of respect and admiration for Rev. and Mrs. W. Malcolm was seen following last Sunday's services at First Baptist Church of Belle Glade when Mrs. Hubert J. Chambliss, on behalf of the church and many other individuals of the community, presented the pastor with the keys to a 1959 air-conditioned automobile. It was Rev. Malcolm's

Last Sunday at the Belle Glade church before he leaves to accept the pastorate of Springfield Baptist Church at Jacksonville.

Mrs. Chambliss and those who had planned the presentation surprised the pastor and his wife immediately following the benediction of the service with the presentation of the keys to the car. They were conducted outside where the congregation watched the couple view their gift.

Mrs. Chambliss said, "As a host of friends in Belle Glade, we wish to present you this 1959 air-conditioned Buick as a token of our friendship and love and for your work while here. May God continue to bless you both as you go to your new pastorate."

Those who gave were not all members of Rev. Malcolm's

church. Individual gifts were received from all denominations. The collection drive took about ten days and was spearheaded by Eddie Schoepel and a committee through the coordination of Bob Davis of Bob Davis Buick, Inc., Belle Glade.

Those who selected the gift had hoped to give the car as well as possible with funds obtained and those donated by Davis; and the gratitude of the community to Rev. Malcolm for his work with his church and humanity in general was fully evident by the fact that gifts were sufficient to obtain the Buick LeSabre with full power windows, air conditioning and air-conditioning added.

A Baptist pastor at Belle Glade since 1953, Rev. Malcolm's influence and guidance has been most certainly felt by many.

Lutheran Church Will Hear Visiting Pastors

Visiting pastors will occupy the pulpit on the three Sundays following Sunday, August 2, when the vicar, the Reverend August Koerber, will be staying at Penney Farms for the greater part of the month of August.

Robert Lail of Lake Worth will bring the message on August 9 and 16. On Sunday, August 23, the pulpit will be occupied by Chaplain Arthur Senne of West Palm Beach.

Witnesses In Area To Attend Seminar

James Gwin Zea, presiding minister of the local congregation of Jehovah's Witnesses announced that plans have been completed for the next semi-annual circuit meeting. It will be held July 31, August 1st and 2nd, at the newly Air-conditioned Building in Bartow, Florida.

It is expected that twenty or more than 175 friends in the community attended the reception honoring Rev. and Mrs. W. Malcolm in the recreation hall of the First Baptist Church Sunday afternoon from 3:30 to 5 o'clock. They came to wish them well in their new pastorate at Jacksonville and expressed regret at their leaving after six years in the community.

Mrs. Malcolm was presented an orchid corsage and Mr. Malcolm a boutonniere by Mrs. Sara Lee Creech and Mrs. Arminia Creech. Walter Schreier, in behalf of the members of the Church presented the Pastor with a love poem. Piano selections were played by various ones during the afternoon. The two serving tables were identically decorated with arrangements of yellow roses and ribbons with crystal punch bowls and yellow tapers in crystal candleabra. Punch, home-made candies, nuts and mints were served.

The reception was given by the Women's Missionary Union of the church with Mrs. Clyde Parnell, president, as overall chairman. Others assisting included Mrs. Ralph Kirk, Mrs. E. D. Humphries, Mrs. Eunice Chambliss, Mrs. Cris Figueira, Mrs. L. C. Strayer, Mrs. F. C. Markham, Mrs. Dalton Harrison, Mrs. W. T. Forsee, Mrs. Ray Browne, Mrs. Maize Whelan, Miss Martha Faye Davidson, Miss Mollie Forsee and Miss Sue Clarke were in charge of guest books.

Glades Vicar Begins 9th Year

The regular monthly meeting of the Women's Society of Christian Service will meet Tuesday, August 4, at 8 p. m. at the Community Methodist Church. The program will be "Faith With Works" with the Star Circle in charge of the meeting.

Catholic Seminary In S. West Miami Will Open Sept. 8

Four outstanding theologians and educators will head the faculty of the new St. John Vianney Minor Seminary which will be opened in September in Miami for young men studying for the priesthood in the Diocese of Miami, it was revealed today by Bishop Coleman F. Carroll.

All Vincentian Fathers, the assignments are: The Rev. John R. Young C. M., rector and superior. The Rev. Paul J. Day, C. M., assistant rector and perfect of discipline. The Rev. Jose C. Pando, C. M., prefect of studies. The Rev. John Long, C. M., prefect of education.

Father Young at the present time is serving as rector of Our Lady of Angels Seminary, Niagara Falls, N. Y., one of the eight major seminaries conducted by the Vincentian Fathers. He is a Doctor of Canon Law, awarded by the Institutum Pontificum Angelicum, in Rome, where he studied from 1933 to 1936.

A native of Boston, he entered the novitiate in 1928 and was ordained in 1933 by the late Dennis Cardinal Dougherty of Philadelphia. He served on the faculty at Niagara University, teaching education, philosophy and canon law, from 1936 to 1939, and at Mary Immaculate Seminary, Northampton, Pa., as assistant superior and director of students from 1939 to 1947, when he was appointed to Our Lady of Angels Seminary, where he is rector.

Father Day, presently a member of the faculty at St. Joseph College, Princeton, N. J., was the recipient of a Master of Arts Degree in French from Fordham University, New York. Father Pando is vice president and dean of the College of Arts and Sciences at Niagara University. He is a native of Tampa, Fla., and completed his theological studies at St. Vincent Seminary, Germantown, Pa.

Sermon Topics

St. Peter's Lutheran Church. The subject of the sermon Sunday August 2, will be: "The Blessed Work of the Holy Spirit." The preacher will be the vicar, the Rev. August Koerber.

Community Methodist Church Sunday morning. Holy Communion service will be held and at the evening service the Rev. Paul J. Day will bring the message on "The Urgency of the Gospel."

Everglades Presbyterian Church. Dr. R. Leighton St. George, pastor, will speak at the morning worship service Sunday on "The Urgency of the Gospel According to Caliph."

The Rev. Clyde Kendall, pastor of First Baptist Church of Inman Park Winter Haven brought the morning worship service at First Baptist Church last Sunday. Rev. Kendall and Mrs. Kendall will be the evangelist at a two week revival held in March.

Announcement was made of the Youth Rally for Juniors and Intermediates and the WMU Meeting Tuesday at the First Baptist Church. It was 8 p. m. business meeting; Friday, August 7, V. B. S. Preparation Day; Saturday, August 8, 8 p. m. Local Brotherhood meeting at church; Tuesday, August 18, 8 p. m. Local Brotherhood meeting; Monday, August 23, 8 p. m. Josephine Ray WMU Circle meeting; Thursday, August 27, 8 p. m. Deacons' meeting.

Churches of Christ Scientist Brotherhood will be a theme dealt with at Christian Science services Sunday in the Lesson-Sermon entitled "Love."

Paul's stand on brotherhood is emphasized in readings from I Corinthians (1:10): "Now I beseech you, brethren, by the name of our Lord Jesus Christ, that ye all speak the same thing, and that there be no divisions among you; but that ye be perfectly joined together in the same mind and same judgment."

Correlative citations from Science and Health with Key to the Scriptures by Mary Baker Eddy will include (447:13): "It should be thoroughly understood that all men have one mind, one God and Father, one Life, Truth and Love. Mankind will be come perfect in proportion as this fact becomes apparent; war will cease and the true brotherhood of man will be established."

Youth Week: A Success . . .

The final two days of Youth Activities Week, which were Thursday and Friday of last week, climaxed a successful youth week at Community Methodist Church. The average attendance was between 50 and 60 youth each night in a planned program of worship, fellowship, refreshments and discourses.

Thursday night began with circle games and mixers to open the evening and was followed by discussion groups under two topics. The seniors were led by Miss Marianne Womack on "Dating Date" and the intermediates were led by Mr. Curtis Thompson, Jr., "Boy Meets Girl." The Rev. Lee D. Rustin was the speaker for the worship period on the theme "Thy Will Be Done - Through Prayer and Dedication" in which he closed with an impressive service.

Friday night all the young people of the church participated in a swimming party, followed by a campfire wienner roast on the corner of the school lot after which a sing period was enjoyed around the campfire. Closing devotions on "Christian Fellowship" was led by Miss Womack.

As a result of the youth week the young people are planning an open house fellowship night each Thursday until school starts at Jamestown Hall beginning this evening at 7:30. Games will be featured and all teenagers are invited to come out and make this a success.

Pa. He received a Master of Arts degree at Catholic University of America in 1937 and a Ph. D. degree in classical languages at the same school in 1941. Father Long has been a member of the faculty at St. Joseph College, Princeton, N. J., since 1947, when he was appointed to Our Lady of Angels Seminary, where he is rector.

Mrs. Jerry Edwards

Honored At Shower

Mrs. Jerry Edwards, the former Shirley Miller, daughter of Mr. and Mrs. E. O. Miller of South Bay was complimented at a post nuptial miscellaneous shower at the South Bay American Legion Home Friday night.

A pink and white motif was carried out in the decorations which included cadena de amour and baskets of pink roses. A pink rosebud corsage was presented the honoree, ginger lily corsage to the bride's mother, Mrs. E. O. Miller and a corsage of tall grass roses to Mrs. Grady Edwards, mother of Jerry Edwards. Mrs. W. M. Jeffries made the corsages.

The refreshment table was centered with a miniature bride and groom, flanked with pink holders and pink tapers and was laid with a white cloth. Pink and white rosebuds made a pathway to the center piece and palms were used as a background for the table. A pink and white umbrella set off the array of gifts on the gift table.

Entertainment included games and Mrs. W. R. Sullivan read a poem of courtship and marriage. The traditional wedding cake, decorated with pink roses and punch was served also mints and candies.

The guest list included Mrs. Paul Davidson, Mrs. Dorothy Groves, Miss Dorothy Campbell, Miss Martha Davidson, Miss June Rogers, Mrs. Wanda Prevatt, Miss Sharon Prevatt, Mrs. Lucy Pearl Hicks, Mrs. Buddy Harrell, Mrs. Grady Edwards, Mrs. Gladys Mitchell, Mrs. N. N. Starling, Mrs. Melbie Miller, Mrs. Henry Elfers, Miss Clara Ann Elfers, Mrs. Betty Mathis, Miss Penny Waters, Miss Janet Summerlin, Mrs. Cross, Mrs. Betty Jean Harrell, Mrs. Betty Jo Williams, Mrs. Betty Newsome and Mrs. Judy Sullivan.

Hostesses were Mrs. Marvin Davis, Mrs. I. P. Roberts, Mrs. Clayton Waters, Mrs. John L. Evans, Mrs. Jane Summerlin, Mrs. W. M. Jeffries, Mrs. Floyd Wilder and Miss Linda Wilder.

Duplicate Bridge Club

Belle Glade Duplicate Bridge Club winners this week were first: Eva Townsend, Milly Williams; second: Mary Richmond, Joann Whitlock; third: Corinne Tittworth, Jean Roemer.

Thirty Children Enjoy Outing At Phipps Park

A picnic was enjoyed at Phipps Park, at Lake Worth, on Wednesday when Hector Ouellette carried the pupils who had enjoyed the Summer Recreation Program at Lake Harbor for an all day outing.

The adults going along and helping Mr. and Mrs. Ouellette with the transportation were Mrs. Y. E. Smith, Mrs. Vernon Henderson, Mr. and Mrs. Chris Lindeth, Mrs. A. B. Mathis, Mrs. Idella Bowen, Mrs. Frank Robertson, Mrs. Quimby Sirman. About thirty children had a nice day and a wonderful lunch.

Camp Life Ideal At Ridgecrest, N. C.

Camp life is ideal at Ridgecrest Camp for boys and Crestridge for girls at Ridgecrest, N. C., according to Skipper and Susan Schoepfel of Belle Glade who have just completed five weeks at the Camps and are planning to go again next year. They are now with their mother, Mrs. Edie Schoepfel at their summer cottage at Tuckasee, N. C., until Sept. 1.

At Crestridge Susan received an award for horse-back riding and her group received ribbons for having received the "Honor Cabin" award. The theme of Camp Crestridge for the year 1959 is "How Great Thou Art." The girls worshiped under this theme in a beautiful new chapel, paid for, from funds contributed last summer by a man who was interested in the camp. Activities included Devotionals, Drama, Sports, Music, Handicrafts, Archery, Rifle, canoeing and

horseback riding. This camp operates under the direction of Miss Arvine Bell and has a Council of Progress, a ceremony held weekly consisting of ranks forming the steps of the Council.

Skipper received an award in archery and was extremely happy over being presented the trophy, Honor-Camper of the Choctaw Tribe in Camp Ridgecrest for the first session of 1959. The gym and dining hall for the boys is a beautiful building made of logs and is said to be the largest log cabin in North Carolina.

The whole camp is supervised by the Choctaw Tribe in Camp Ridgecrest. The Indian and Indian lore plays a big part in other activities are Morning Watch, Swimming, Archery, Horse back riding, Tennis, Rifle, crafts, hiking and camping. Camp Ridgecrest operates under the direction of Wayne Chastain, assisted this year by Bob Kent of Belle Glade. For thirty years Council Ring has played a most important part in the life of the camp and its purpose is to give every camper goals toward which he may strive. The theme of the camp this year is "God Needs A Man."

HAPPY BIRTHDAY GREETINGS

Today: Jane Young, Linda Elaine Parson, Karen Sue Harris.

Boys and Girls In Service

SCHWABISCH HALL, GERMAN (AHTNC) — Army Pvt. Louis W. Friedheim, son of Mr. and Mrs. Joe Friedheim, Belle Glade, Fla. recently arrived in Germany and is now a member of the 37th Artillery.

Friedheim, a surveyor in the artillery's headquarters, entered the Army in December 1958 and was stationed at Fort Chaffee, Ark., before arriving in Europe.

The 20-year-old soldier was graduated from Belle Glade High School in 1957 and attended Spring Hill College, Mobile, Ala.

Private Junior A. Collins, of Belle Glade has been assigned to Company B, 16th Ballation, 4th Training Regiment, for advanced specialist training in the General Supply Course at Ft. Jackson, S. C.

During his eight weeks in the Supply School, he will be trained in maintaining stock record pertaining to receipt, storage, and issue of supplies and equipment. In addition, he will be taught the operation of office machines and Army administrative procedure.

Graduates of the General Supply School are assigned to work in supply channels at company, battalion, regimental or higher levels, either in the United States or overseas, upon completion of their eight weeks of training.

Rogers Sponsors Aid Amendment

The Congress has put the final stamp of approval on the Rogers amendment to progressive reduce and eliminate foreign aid gifts and grants.

The amendment, which is embodied in the 1960 foreign aid bill successfully weathered initial House passage and conference approval to emerge in substantially the same form in which it was introduced by Congressman Paul G. Rogers. Specifically, the Rogers amendment directs the President to submit by fiscal 1961, a detailed country-by-country plan where, by foreign economic aid in the defense support and special assistance categories will be progressively reduced and eliminated.

It is now possible to have mirrors that match your drape or furniture fabrics, says June Cabot, home arts consultant for Libbey-Owen-Ford. She points out that one mirror manufacturer uses fabrics supplied by the individual homemaker to cover the frames which hold the mirrors.

NOW AVAILABLE! Newest Advance in Home Insulation.

Gold Bond TWINSULATION

For the first time, a rock wool blanket with extra heavy insulation on all four sides. Provides twice insulating action:

- 1 Trapped air-cells in the face of rock wool, best heat movement.
- 2 Reductive blanket surface, when facing minimum 1/4" air space, turns back radiated heat.

An ideal insulating combination against loss of furnace heat in winter and against penetration of attic heat in summer. Resilient spun rock wool, sealed to both sides of blanket covering won't sag or settle. Makes a stiffer, easier-to-install blanket. Stop in, examine samples, see how easy it is to put it in your attic. Give us your attic dimensions and we can tell you how little it costs to enjoy the comfort and fuel-savings of Gold Bond Twinsulation!

Salute to FLORIDA COUNTIES
SANTA ROSA COUNTY
County Seat, **Milton**

Six flags have flown over this county... Spanish, French, English, West Florida Republic, Confederate and United States. Formed in 1845 from Escambia County, its primary source of income is agriculture, supplemented with timber and naval store industries. County Seat Milton is an important chemical center... home of Escambia Chemical Corporation, Columbia National Corporation and American Cyanamid. A July 4th Chamber of Commerce Water Carnival follows a 4th of July Carnival sponsored by the U. S. Naval Auxiliary Air Field, Whiting Field, each year.

In progressive Santa Rosa County and throughout Florida, the United States Brewers Foundation works constantly to assure the sale of beer and ale under pleasant, orderly conditions. Believing that strict law enforcement serves the best interest of the people of Florida, the Foundation stresses close cooperation with the Armed Forces, law enforcement and governing officials in its continuing "self-regulation" program.

BEER—FLORIDA'S LIGHT, BRIGHT BEVERAGE OF MODERATION

United States Brewers Foundation
201 S. Main Street
Columbia, Florida

FARMING IS BIG BUSINESS IN FLORIDA

- Florida's farms, ranch lands and groves comprise half the area of the State.
- Their gross cash income has reached 750 million dollars per year.
- The average value per farm is estimated at \$40,000.

The farmer is a vital person to the State's economy. He keeps in stride with the latest techniques and labor-saving methods... knows that electricity can do in minutes the back-breaking chores that used to take hours.

Yes, the big difference in today's rural scene is that ever-Reddy electric switch for getting things done faster, cheaper, more efficiently.

OSCEOLA CENTER RECREATION activities are shown in these three pictures taken during the last week of the program. Top: Arts and Crafts Department display shows variety of projects completed. Second (L-R) are Tony Hicks, Danny Miller, Debbie Woodard, Miss Elaine Dearthoff, instructor. Third: Below, Glidion skills are being developed by: Back field (L-R) Becky Scraper, Sandra Scraper, Kathy Patocall, Linda Woodard, Patricia Salvadori, Sue Alkimon, Pastry Jones, Below: Glidion skills are being developed by: Back field (L-R) Pat Patocall, Terry Mann, Thomas Scraper and Gary Mann. Line: Cecil Cross, Diane Billiter, Bobby Woodard and Jerry Croft. Mac Billiter, Mac Scraper, Fred Miller, Chuck Billiter, Kenny Harper, and an unidentified pool.

Successful Program At Osceola Is Concluded With Big Party For 150

Osceola Center's six-week summer recreation program under the auspices of the Palm Beach Board of Public Instruction concluded its final session on a voluntary basis, he said. He said the arts and crafts part of the program was especially successful.

Directors Luke Thornton and Henry Williams announced that the highest number of children who attended the program was 100 and the daily average was about 60. Thornton termed the program highly successful and extended his thanks to the Christian Ministry to Migrants on a voluntary basis, he said.

Organization at the housing center for their assistance with the arts and crafts division of the program.

Miss Elaine Dearthoff and Glenn Kaser of that organization helped with the program on a voluntary basis, he said.

He said the arts and crafts part of the program was especially successful.

Preceding the serving of refreshments at the Friday affair, the archery club at Osceola Center presented a 30-minute demonstration under the direction of Tom Connolly.

The activities of the program ranged from quiet games to strenuous sports on the athletic field such as football and baseball.

PICTURED at a recent luncheon at Belle Glade are several Southern Bell Telephone Co. employees (l-r): Robert T. Mason, Traffic Supervisor, West Palm Beach; William R. Bressette, new District Traffic Manager, West Palm Beach; Zeke O'Farrell, Group Manager, Belle Glade; Mrs. Helen Dees, John L. Dees, Miss Imogene Crews, Chief Operator, Belle Glade; and Mrs. Eloise Caldwell, Evening Chief Operator, Belle Glade.

Southern Bell Names New Manager For District Traffic In WPB Area

Belle Glade Southern Bell employees prepared a luncheon July 14 at the lounge of the Southern Bell Traffic Building, 100 S. W. Ave. C honoring two district officers of the company in recognition of their new appointments to supervisory positions, according to Group Manager Zeke O'Farrell, Belle Glade.

John L. Dees, former district manager of the West Palm Beach area, who has been assigned to the Louisville, Ky., office as Division Manager, was replaced by William R. Bressette, formerly Division Traffic Supervisor at Orlando.

Dees came to the company in 1949 and has held positions of increasing responsibility in Jacksonville, Miami and West Palm Beach.

As new district traffic manager, Bressette will be in charge of long distance operations in the Glades and responsible for the improvement of service to subscribers, O'Farrell pointed out.

Addis Howard Hooks A 9 Lb. Black Bass

A whopper of a black bass weighing 9 lbs. 2 oz., was brought in by Addis Howard on Friday afternoon while he and his wife were fishing on Lake Okechobee out from J. Mark Fish Camp at Belle Glade.

The bass was caught on a pawpaw silver flash, top water plug. This is the largest bass recorded for some time.

Allen Family Guests Sunday At Camp Welaka

Dr. and Mrs. Robert J. Allen, Jr., Bobby and Miss Carol Allen attended an invitational dinner of the Board of Directors of the Palm Glades-Girl Scout Council Sunday at the new girl scout camp lodge Welaka near Jupiter.

Girls from Belle Glade attending camp for two weeks session among the 60 attending were Terry McWhorter, Patricia Hodges, Bonnie Jean Anderson and Patricia Wilkinson. The latter two girls took the Allens on a tour of the camp where they had constructed a primitive kitchen with raised fire place, rustic tables and place for wood pile. The other girls were in a cabin unit moved from the camp manager's quarters.

The Girls Scouts presented a water program on the new lake which had been dredged out of the camp manager's quarters. One of the events a canoe race was won by Bonnie Jean and Patricia Wilkinson. Another activity which was a lot of fun was a greased watermelon scramble in the water, with two teams competing to see who could get the watermelon on their side.

Also present were five of the eight National Roundup Senior citizens who were in training program. The girls were very enthusiastic about their trip and are an inspiration to the younger girls.

Teen Town Hall

(Continued from Page One) area to their dance Saturday night as a stop-gap measure.

Mrs. Ruth Sands and Mrs. Charles McWhorter, president of Teen Town, Inc., and their chaperones, are expected to be helping with chores at Pahokee this weekend.

Charles McWhorter, president of Teen Town, Inc., said, "We're not going to abandon Teen Town because we lost the building."

It was understood that the executive committee of Everglades American Legion Post 20 would consider making their hall available to Teen Town, contacted by Commander Randolph Livingston. He emphasized that the post's Club 20 bar would be sealed off from the main hall or closed during the Teen Town dance.

Meanwhile, Teen Town has scheduled a dance with a live band for Aug. 8; however, it has not been decided where to hold the dance.

Traffic Plan Gets

(Continued from Page One) ter" bulletin from the Belle Glade Chamber of Commerce carries a heading: "Progress (it says: when it is not)." It says: "When the city makes any changes for what they believe is best for its citizens as well as its progress there are always some of us who do not agree. The changing to parallel parking on Avenue A went over like a ton of bricks with some folks. But honestly, folks, you will have to admit it's easier to drive down Avenue A now without fear of being hit or hitting. It's easier in the summer, think how much easier it will be during the coming season when the flow of traffic is much heavier."

The article went on to say that the change to one-way traffic on S. Canal St. (W.) has done much to improve the flow of traffic on Main St. and across the bridge.

"Also," the bulletin went on, "you can see that the city has cut off three feet on the corner in front of the chamber. While not meeting all the needs on this corner, it is an improvement. We heartily commend our City Fathers for their part in promoting better traffic conditions."

Master Hearings

(Continued from Page One) just another way in which we can help the citizens who live 40 miles away from the court-house.

Not Much Difference

(Continued from Page One) \$16.84 or \$17.60 a year is a drop of 56 and 47 respectively from last year. The north end will be paying 35 mills more in each instance than those in the southern district.

New Words

Noah Might Be A Square These Days

Even Noah Webster might be puzzled today if he ran across the words "bug" and "hooper" (bug - v. t., to annoy or confuse; coined by the "Beat Generation").

Americans seem to manufacture words like these for every gadget and social trend they produce. For the benefit of the man or woman who doesn't read dictionaries, The World Book Encyclopedia has compiled a list of some of the words and phrases that entered our language in 1958.

"Trunk," for example, is an automobile design in which the transmission is in the rear instead of against the engine.

Usually a child or his weight-worried mother, who uses a hula hoop.

Economists have brought clarity and imagination to the mysterious workings of supply and demand. The word "bottoming out," which means reaching the lowest point in a recession.

The hotel has graduated from motel to "boater" - that's a motel built over the water, where people can moor their boats during the day.

If you have a heavy foot on the gas pedal, you obviously are "flooring it."

Science has introduced the word "megacore," meaning a million dead persons, such as result from nuclear war.

An example of making a silk purse out of sow's ear is "international style."

Electrocardiograph

(Continued from Page One) last week's action through the "heart" of the heart.

"It is always a pleasure," stated Charles Platt, President of the Palm Beach County Heart Association, "for the heart association to find itself in this role of making possible the very latest equipment to be used in the fight against heart disease. The people of the Glades area may have been made possible by the 1959 American Heart Association."

With Mrs. Mulberg, Platt and Dr. Shirley were Dr. J. A. Baker and Mrs. Minnie West, supervisor of nurses, who also attended the presentation ceremony at the hospital.

Past RDB President

(Continued from Page One) Since most of the people of Russia are not permitted to travel, are prevented from getting information of what happens abroad, and are so much better off than they were under the Czars, they cannot believe that any other people of the world are better off than they are.

Waugh pointed out the great disparity in the running of our embassy in Russia where Russian nationals are employed while the Russian embassy in the U. S. is run entirely by Americans, and that the Russian spy activities in this country, some of these lower grade.

It was the speakers opinion that no good for the USA was intended by the Russians from the exchange of students, fairs in New York and Moscow and the vice president's current visit to the USSR.

For another example of the program Miss Molly Forrease sang a medley of songs. Ouida Langland, daughter of Mr. and Mrs. W. Langland and Rotarians Bob Fink, Pahokee, and Paul Chapin, Lake Worth, were also guests Friday.

Boat Ramp Site

(Continued from Page One) inners which controls the dike area; however, they have already approved the placement of picnic areas on its rights of way.

State aid is being sought in connection with the road department's wayside park area program. The commissioners all endorsed the idea.

According to a feature article in The Wall Street Journal, "The nation's military chiefs are making a new assault on a problem crucial to the nation's survival: How to develop new weapons faster than Russia does." Reforms include giving defense contractors a free hand in airplane and missile development; streamlining of the military channels; manufacturers must go through to get decisions a reduction in the number of different planes, missiles and weapons under development; and the abolishment of many Pentagon committees.

RAINFALL AND EVAPORATION (1924-58 DATA)

Month	Average	Amount	Year	Amount	Year	Amount	Year
Jan.	6.02	3.93	1957	6.53	1958	0.11	1959
Feb.	1.72	2.67	1952	5.55	1941	0.03	1944
Mar.	3.07	6.53	1947	10.97	1947	0.33	1944
Apr.	3.28	4.12	1941	8.22	1948	0.01	1946
May	1.34	2.63	1951	6.52	1951	1.06	1953
June	9.11	6.96	1942	24.11	1942	0.59	1951
July	9.02	3.78	1944	15.30	1951	3.23	1953
Aug.	8.40	6.74	1949	16.38	1944	2.65	1958
Sept.	4.92	5.02	1946	19.28	1946	2.70	1959
Oct.	5.11	4.80	1924	15.84	1924	4.00	1925
Nov.	2.10	10.90	1932	12.44	1932	0.15	1939
Dec.	1.72	4.39	1957	7.09	1949	0.06	1951
Year	57.72	10.80	1952	24.11	1945	0.01	1946

HIGH AND LOW extremes are shown on the table above. Tables of this kind help plot the expected and the unexpected. Table shows greatest single day's rain, greatest month and lowest month of rain in the period 1924-1958. Largest amount of rain recorded for a calendar year was 84.68 in 1947; lowest was 35.55 in 1958 while the 35-year average as seen from the above table is 57.72 inches.

Experiment Station

(Continued from Page One)

Rain Measurement
In the Belle Glade area, Harrison says, "official weather bureau rain gauges are few. Everglades Experiment Station maintains a weather station in the family of the U. S. Weather Bureau station. Daily records are kept on rainfall, temperature, humidity, wind velocity, barometric pressure, evaporation, evapotranspiration, solar radiation and soil temperature.

Many friends who report rainfall from small or improvised rain gauges often have shown the station the record and velocity at the time of the rain. The station does not often cause a small rain gauge to give results twice the actual rainfall.

Another reason for discrepancies in rainfall reporting is that most of our showers are local in nature. For example, it may rain in the area of the station and only two inches in Belle Glade during a single day. These usually balance out over the year.

Measurement Equipment

The weather data machines are enclosed in special structures which protect the delicate equipment from damage from the weather it measures. It is doubtful, Harrison said, that private citizens could afford similar equipment or personnel to check and read it, therefore the cost of the service is provided through governmental agencies.

Some of the equipment used

in the measurement of precipitation is rainfall and other weather data in addition to the graph which records the intensity and duration of the rain.

Mrs. Jones Appointed

(Continued from Page One) Each section was studied for revision of control, where duplication, inequitable regulations and conflicting sections.

Talks and Tours

(Continued from Page One) In the meantime, Club 20, P. L. Thayer on plant pathology problems and with Dr. J. R. Orsengo on weed control.

Negro Hospital Notes

Admitted: Otis Hanford Jr., Long John Johnson, Elmer Williams, Mildred Thornton, Cora Coleman, Betty McKenzie, Lesa Taylor, Tommy Taylor, Betty Burrs, Corine Langmade.

Discharged: Stella Austin, Eunice Willis, Willie Wright, Long John Johnson, Elmer Williams, Mildred Thornton, Corine Langmade, Mary Smith, Cora Coleman, Rena Leggett, Betty McKenzie, Mildred Thornton, Ridley Bartlett.

Negro Births

Leroy and Louise Johnson, Belle Glade, a son born 7-21-59.

Negro Deaths

Last rites were held at Section 29, Pahokee Monday for Mary Mae, 56, who died July 21 at Everglades Memorial Hospital of natural causes. Elder Flann of Belle Glade officiated at the rites held at Apostolic Holiness Church.

Burial was at Port Mayaca

under development, and the abolishment of many Pentagon committees.
